Pontos de atenção para a automatização de processos...

Harvard Business Review

November-December 1953

AUTOMATION- *the new technology*

- Rather than replacing human labor, automation will make it possible to render new, more comprehensive and more economical services.

Look What They're Doing to Your Job

By **WILLIAM S. DUTTON**

Factory work is changing. New plants, without walls or ceilings and automatically operated by weird Buck Rogers gadgets, are shunning cities. Jobs will be plentiful, easier; the pay good.
